

Advanced Hand Control 5085 SRT/5095

BF329

The large, easy-to-read LCD window of the Advanced Hand Control illustrates table positioning data, making it perfect for anesthesiologists behind the drape. Backlit buttons allow for quick button recognition even in darkened ORs. Save often-used patient positions with one-touch Memory settings. Available one-touch Beachchair, Rotate, and Transport buttons enhance patient workflow.

Optional Accessories: Hand Control Covers (BF501)

Not CE marked

COMPATIBLE WITH

5085 SRT - 5095
