Fluid Collector Bags, Sterile Box of 10

BF458

CE

These sterile disposable bags slide over the flexible drape support of the Fluid Collection System. Each bag has a tissue retention filter as well as a flexible, expandable drain hose that can be connected to suction or used with a kick bucket. These bags fit both the Standard and Bariatric drape supports.

Fluid Collection System (BF457) or Bariatric Fluid Collection System (BF56)

CE marked product
