

Horseshoe Headrest

BF036

The padded Horseshoe Headrest supports and cradles a patient’s head for a variety of surgical specialties including ophthalmology and neurosurgery. When attached to the Horizontal Attachment #1800 (BF008) or the Frontal Sitting Attachment (BF01) the headrest can be positioned for supine, prone or Fowler's patient posturing. 2" thick pad included.

Required Products: Eye-ENT-Neuro Headrest Adaptor (BF173, BF309, BF00244) and either Horizontal Attachment (BF008) or Frontal Sitting Attachment (BF01)
