Eye-ENT-Neuro Headrest Adaptor (7080)

BF00244

CE

This specialized headrest adaptor accommodates standard Neurosurgical, Ophthalmic, and ENT accessory attachments with cylindrical post attachments that are midline to the table. The post attachments are conveniently inserted into either end of the STERIS surgical tables for normal or reverse orientation positioning. Locking levers secure the attachment of the inserted headrest accessory.

Patient Weight Capacity: 500 lbs (227 kg)
