HexaLux™
EXAMINATION LIGHT

Essential. Everywhere.

HexaLux™ - Exceptional lighting quality…

…Capitalizing on the XLED™ surgical light experience

- ✓ Aluminium light head and yoke
  - Esthetic shapes
  - Lightweight = maneuverability
  - Excellent heat dissipation
  - Compactness

    2,9kg and Ø304 mm

Robust and light system

→ Great comfort of use
→ Suitable for intensive daily use

HexaLux™ - Exceptional lighting quality…

…Capitalizing on the XLED™ surgical light experience

- ✓ Premium LEDs: same LED modules as in XLED™
  - 4 modules of 4 LEDs = 16 LEDs
  - Homogeneous white light - 4 400K
  - Excellent color restitution (Ra = 95),

  In particular for **skin (R13 = 97) and red tones (R9 = 97**)
  - Consistent color temperature across the pattern
  - Low power consumption
  - Long life span > 50 000hrs compatible with daily use needs

Diagnostics will benefit from its reliability.

HexaLux™ examination light - Intuitive to use

"One-click control" a unique asset
With adjustment and positioning from one hand, HexaLux™ allows clinicians to focus on the essential: the patient.

All features of HexaLux™ are directly available from the central sterilisable handle:

- ✓ Turn light on or off,
- ✓ Adjust light intensity
- ✓ Adjust light spot size

Easy to use:
Simply rotate the handle!
