

Schure Socket XL

8000134

CE

The Schure Socket XL is a durable and versatile clamp that accepts both round and flat posts for securing accessories to the table siderail. It has an easy snap on design that can attach anywhere along the length of the rail and not just at the ends or at notches. Its durable stainless steel body and impact resistant copolymer handle protect the clamp from damage and abuse. The Schure Socket XL is sold as a single unit.

Clamp to be used for US rails only.
