General Surgical Table

STERIS

Raising OR Standards
in Productivity and Flexibility

STERIS

Quick, safe patient positioning

STERIS

Improves Airway Management

New Dual Articulating Head rest

- Versatile positioning for anesthesia providers
- Tilt & height improved patent airway management
- Simplifies lateral patient positioning

STERIS

Intuitive Hand Control

- **LCD** provides information on patient status and potential table section interference through the auto limit sensor function and service diagnostics
- **Dedicated buttons** offer instant access to smooth sectional articulation, return-to-level, floor lock activation and patient positioning
- **Colored buttons** offer quick and confident identification of the most frequently used functions
- **Backlit screen** for clear viewing in darkened rooms
- **Auto Collision sensors** will stop sectional collisions and suggest an alternative articulation
- **Detachable cord** for cost saving remote maintenance

STERIS

Lighten your workload

Featherweight Leg Section

-105° Enables leaving leg section attached during procedure

675mm Low height improves the ease of procedures with comfort when seated

6.35kg Light weight surpasses AORN Guidelines for repeated lifting in the OR

STERIS

Additional Key Features and Benefits

Shortened Base
Increase surgical access for C-arm and lithotomy/Urology position

Mushroom Cap
Velcro-free solution for easy cleaning promotes better infection prevention control

Flush Siderails
Absence of exposed screws promotes infection prevention measures

Stability
Floor locks with self-compensating hydraulic system

Manual Override
Easy access to backup hand control and foot pedal to provide articulation if a fault occurs

STERIS

Clear C-arm access

Full table X-ray Tops

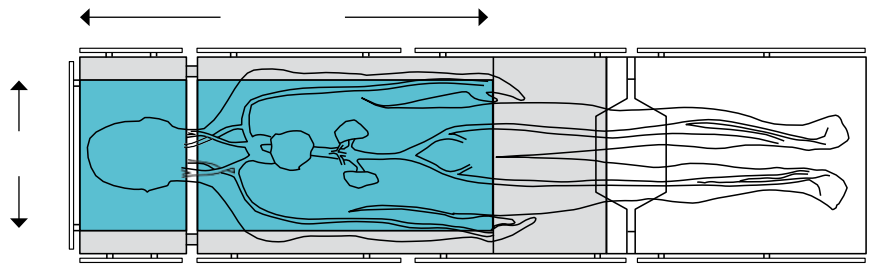
- Large imaging coverage
- Full body length of Xray cassette access

STERIS

Excellent C-arm access

The generous imaging area permits clear, high-quality images crucial to today's MIS, cardiothoracic, orthopedic and neurosurgical procedures.

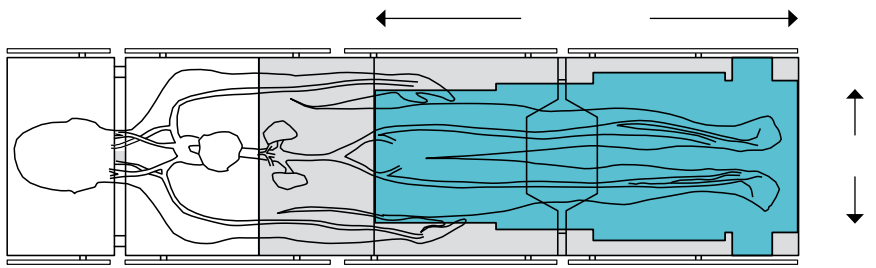
1092mm



Upper body IA Coverage

- Pacemaker insertions
- Hickman catheters
- Broviac insertions
- Shunts
- IVC filters
- Cholangiography
- Lung biopsies
- Thoracic and kidney
- Gall bladder
- Total hip revision
- Ophthalmic
- Neurosurgery
- Spinal
- Implantable defibrillation
- Endoscopy

1092mm



Lower body IA Coverage

- Lower body arterial imaging
- Lower limb, non-traction orthopedics
- Femoral/popliteal bypass
- Laser angioplasty

STERIS

Designed with safety in mind

499kg	Max. Patient weight at centered load
454kg	Max. Patient weight All articulation except slide
272kg	Fully articulated in Normal orientation
260kg	Fully articulated in Reverse orientation

STERIS

Meeting the Market Needs and Standards

±30°	Trendelenburg / Rev. Trendelenburg
±90°	Head Section Range Upward / Downward
140°	Flex Angle
110°	Reflex Angle
675mm	Lowest height
1136mm	Highest height
20°	Lateral Tilt (Left / Right)
+80° -40°	Back Section Range Upward / Downward
+0° -105°	Leg Section Range Upward / Downward
102mm	Kidney Elevator Elevation Range

STERIS Patient Warming System (Non-CE Marked)

A warm welcome from the start!

STERIS

Improving Anaesthesia Care

- ✓ Warming from the start
- ✓ Conductive, not convective
- ✓ Quiet and Compact design
- ✓ Reusable and reduces cost waste

STERIS

Provide warmth when it is matters most

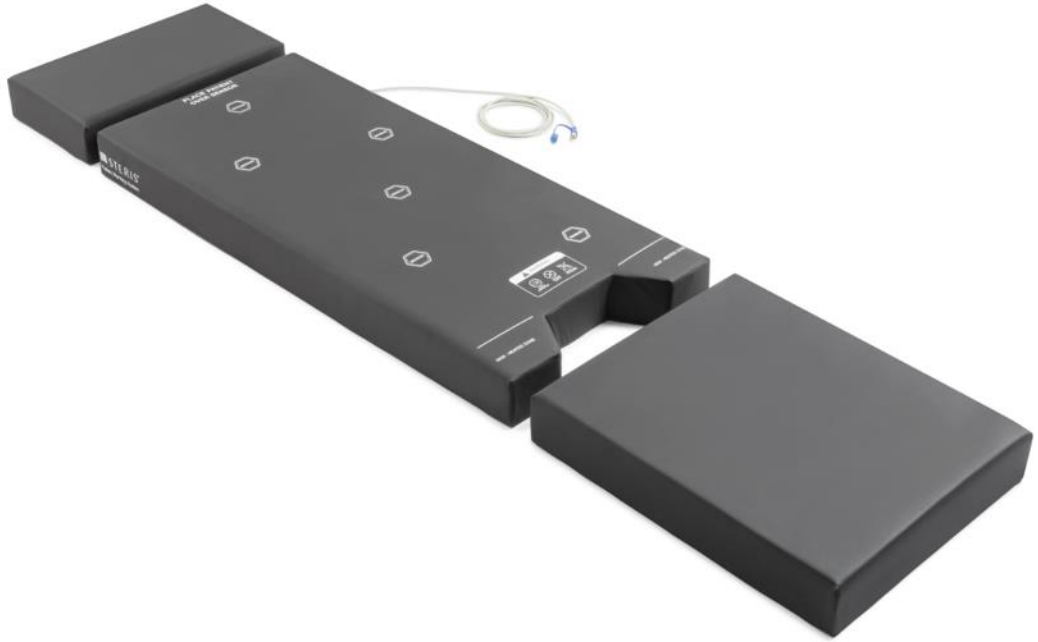
- Controls and displays temperature information
- Temperature setting from 35°C to 39°C
- Warning alert system
- Mounts to IV Pole or surgical table rail

STERIS

Provide warmth when it is matters most

Heated 3" Upper Torso Pad

- Compatible with 4000-5000 series Tables
- Compatible with Hook and loop tabletop only
- Option for complete package with 3" non-heated head and leg pads



STERIS

Provide warmth when it is matters most

Heated Over Body Warming Blanket

- Over-body blanket max is 38°C
- Suitable for upper and lower body warmth coverage
