

Clark sockets (Pair)

BF083

Single lever. Provide angular control and height control for the accessory.

Needs to be installed at siderail notches.

Fits posts with a diameter up to 11/16" (18mm)

STERIS Clark Sockets are ideal for mounting accessories with round posts anywhere along the table siderail. The Clark Sockets secure the accessory to the siderail and provide height and angle control with one handle. The single lever simplifies attachment and quick removal of accessories. These autoclavable stainless steel clamps are sold as a pair.

CE marked product.

To be used with US side rails only.

COMPATIBLE WITH

5085 SRT - 4095 - 5095 - 7080
