5085 SRT

General Surgical Table

STERIS

Advancing Care
Through Purposeful Innovation

- ✓ Transfer patient from pre-op to post-op in one table
- ✓ Reduce costly non-operative time
- ✓ Optimal flexibility with 360º full rotation pivot mode

STERIS

Quick, safe patient positioning

STERIS

The Advantage of Drive

SLIDE

454mm

- Dual translational slide
- 227mm to head
- 227mm to feet

ROTATE

360°

- Full degree rotation in pivot mode
- Versatility access for surgeons and C-arms

TRANSPORT

2

- Two directional motion forward/reverse
- Speed Forward: ≤3km/h
- Speed Reverse: ≤2km/h

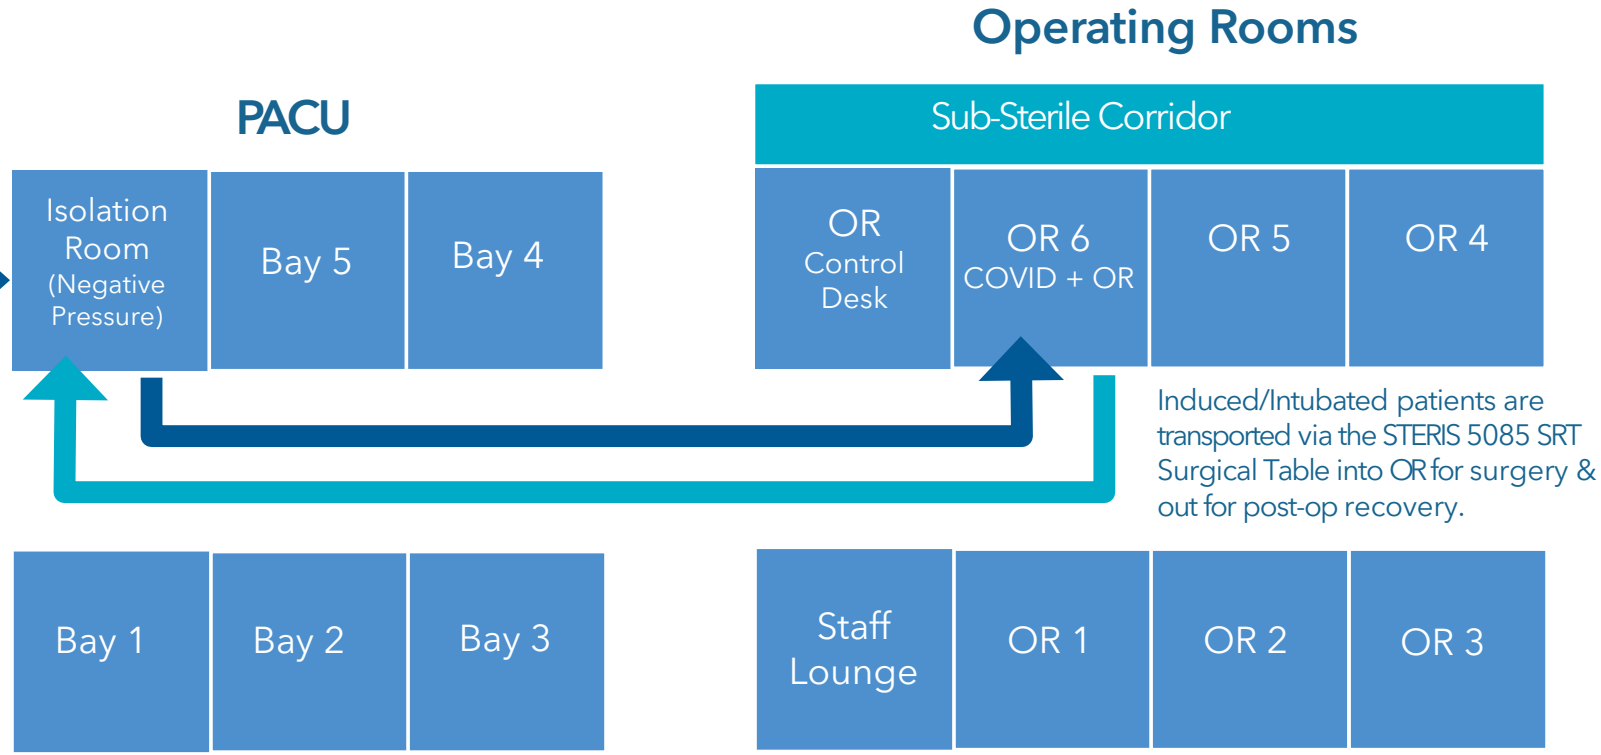
STERIS

Example Workflow:

Used for Transporting COVID + Patients

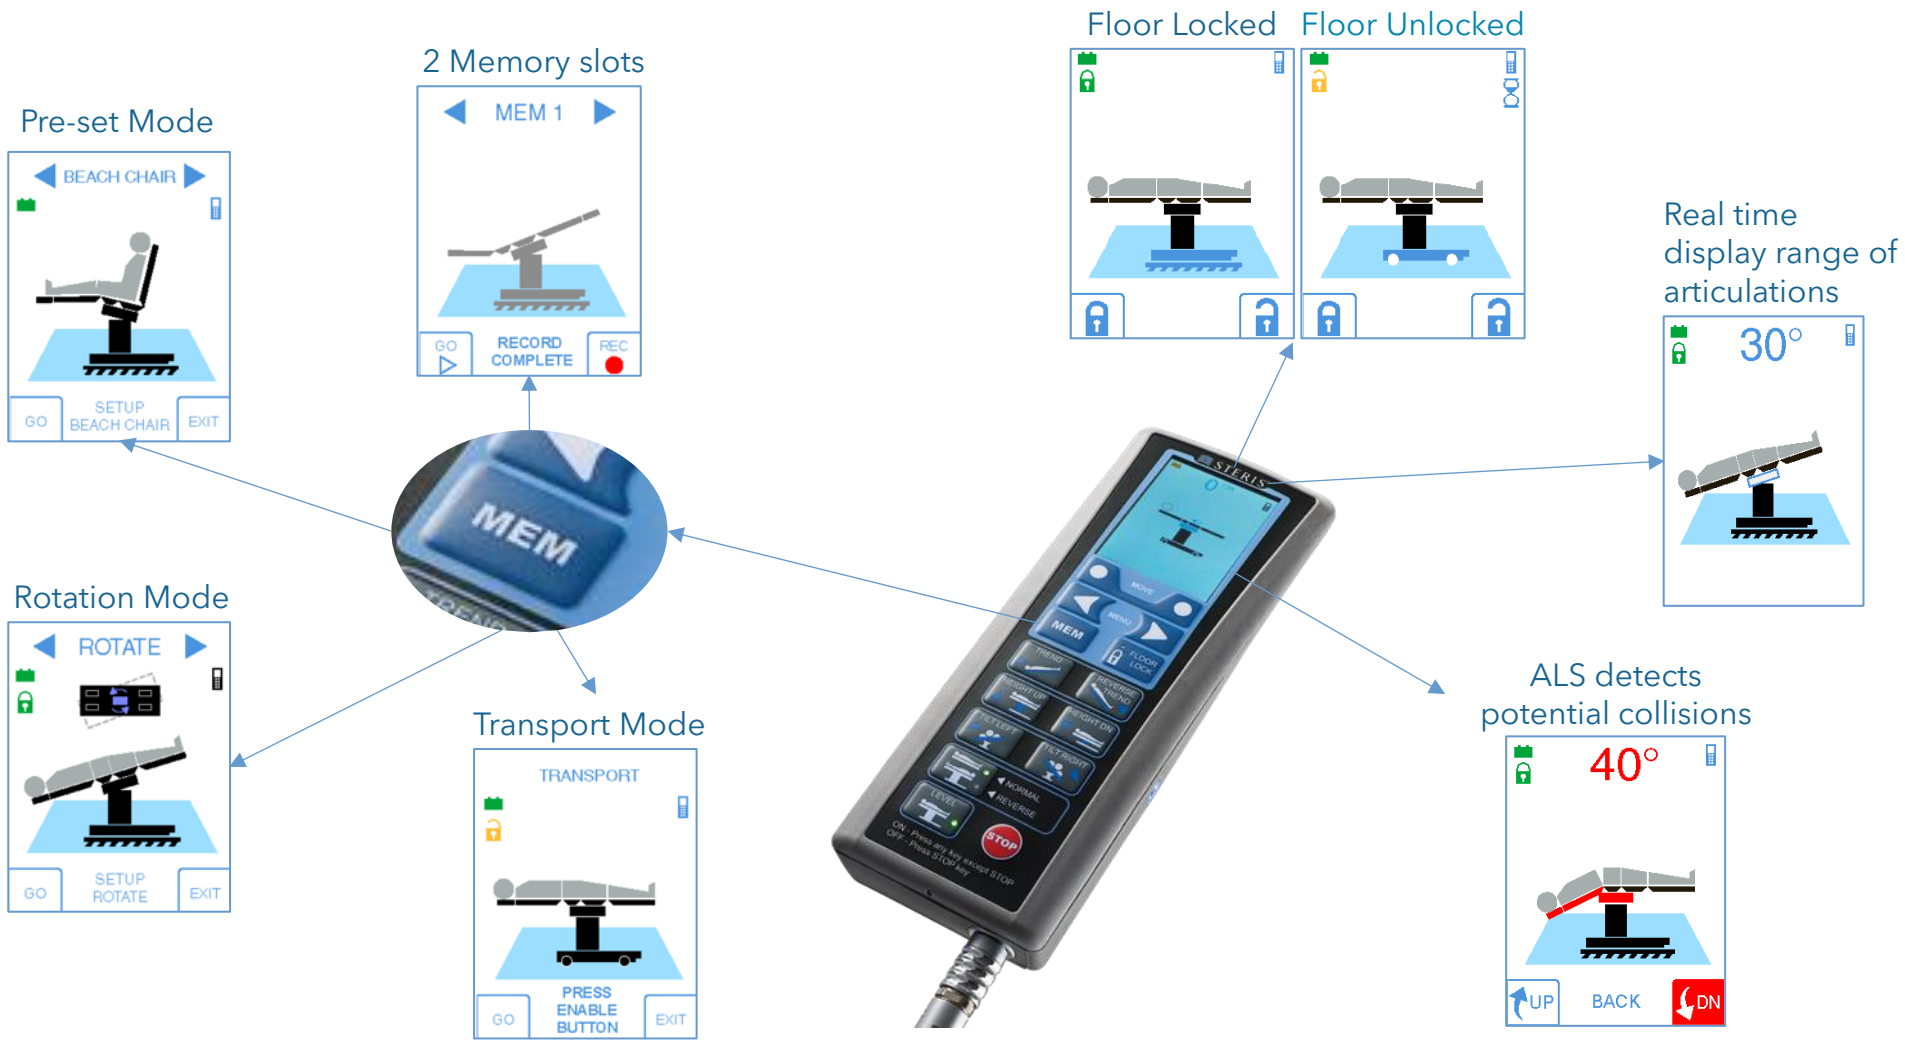
STERIS 5085 SRT Surgical Table is placed in a Negative Pressure Isolation Room near the operating room.

- ✓ For example, in the PACU or Pre-admission unit.
- ✓ Pre-operatively, COVID+ patients are induced & intubated on the STERIS 5085 SRT Surgical Table in the Negative Pressure Isolation Room.



STERIS

Intuitive Hand Control



STERIS

Lighten your workload

Featherweight Leg Section

-105° Enables leaving leg section attached during procedure

581mm Low height improves the ease of procedures with comfort when seated

6.35kg Light weight surpasses AORN Guidelines for repeated lifting in the OR

STERIS

Additional Key Features and Benefits

Head Section
Unique drive head section with built-in handle with ability to articulate as standard head rest

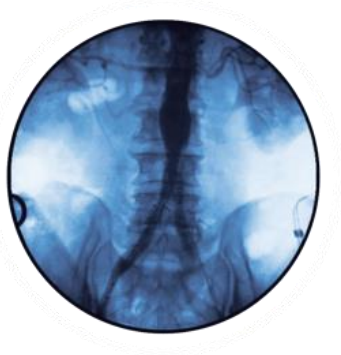
Mushroom Cap
Velcro-free solution for easy cleaning promotes better infection prevention control

Exceptionally Low
Table height for modern MIS, Robotic and Bariatric surgery

Integrated Manual Override
Easy access to backup hand control and foot pedal to provide articulation even when power is out or failure

STERIS

Clear C-arm access



Full table X-ray Tops

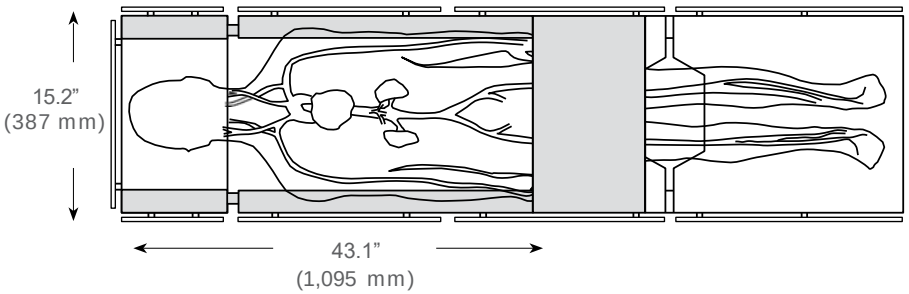
- Large imaging coverage
- Full body length of Xray cassette access

STERIS

Excellent C-arm access

The generous imaging area permits clear, high-quality images crucial to today's MIS, cardiothoracic, orthopedic and neurosurgical procedures.

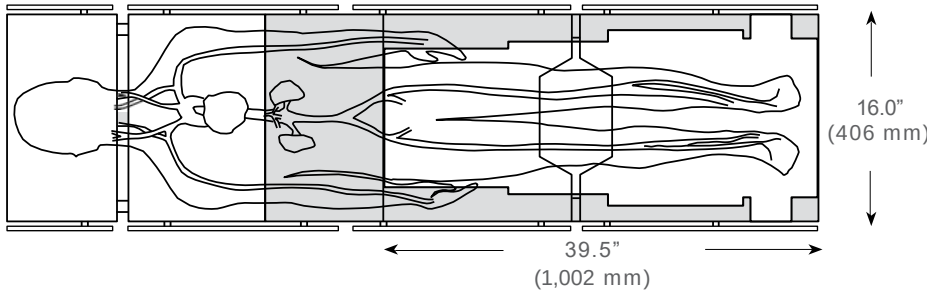
1095mm



Upper body IA Coverage

- Pacemaker insertions
- Hickman catheters
- Broviac insertions
- Shunts
- IVC filters
- Cholangiography
- Lung biopsies
- Thoracic and kidney
- Gall bladder
- Total hip revision
- Ophthalmic
- Neurosurgery
- Spinal
- Implantable defibrillation
- Endoscopy

1002mm



Lower body IA Coverage

- Lower body arterial imaging
- Lower limb, non-traction orthopedics
- Femoral/popliteal bypass
- Laser angioplasty

STERIS

Designed with safety in mind

544kg Max. Patient weight
at centered load

454kg Max. Patient weight
All articulation except slide

272kg Fully articulation including
Slide, Rotation, Transport

STERIS

Meeting the Market Needs and Standards

±30°	Trendelenburg / Rev. Trendelenburg
+60° -90°	Head Section Range Upward / Downward
140° 110°	Flex Angle Reflex Angle
581mm 1080mm	Lowest height Highest height
20°	Lateral Tilt (Left / Right)
+80° -40°	Back Section Range Upward / Downward
+0° -105°	Leg Section Range Upward / Downward
102mm	Kidney Elevator Elevation Range

STERIS Patient Warming System (Non-CE Marked)

A warm welcome from the start!

STERIS

Improving Anaesthesia Care

- ✓ Warming from the start
- ✓ Conductive, not convective
- ✓ Quiet and Compact design
- ✓ Reusable and reduces cost waste

STERIS

Provide warmth when it is matters most

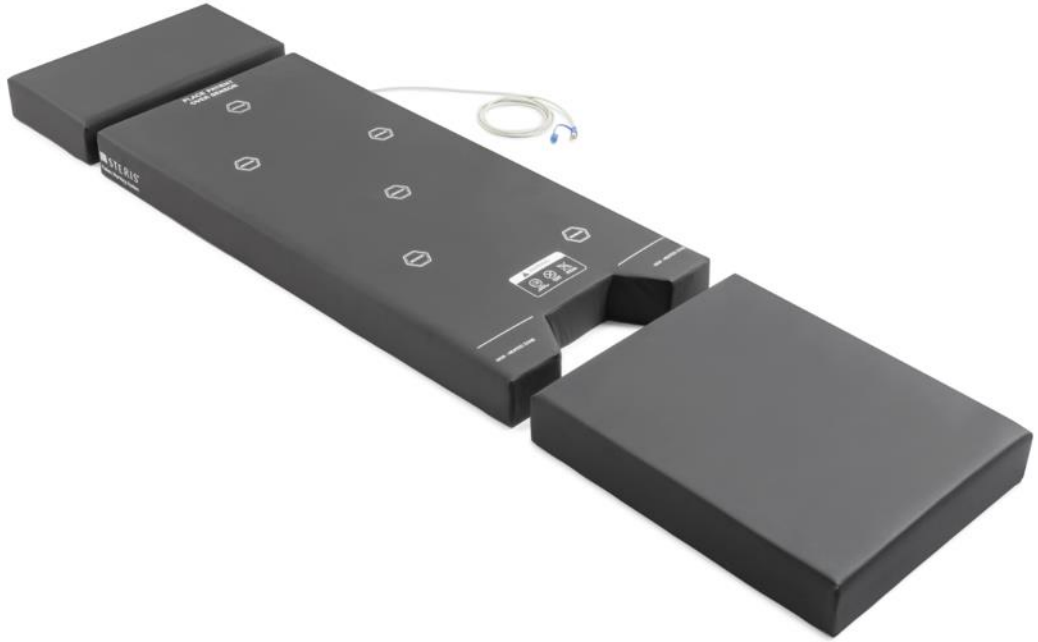
- Controls and displays temperature information
- Temperature setting from 35°C to 39°C
- Warning alert system
- Mounts to IV Pole or surgical table rail

STERIS

Provide warmth when it is matters most

Heated 3" Upper Torso Pad

- Compatible with 4000-5000 series Tables
- Compatible with Hook and loop tabletop only
- Option for complete package with 3" non-heated head and leg pads



STERIS

Provide warmth when it is matters most

Heated Over Body Warming Blanket

- Over-body blanket max is 38°C
- Suitable for upper and lower body warmth coverage
